CEUs: 0.7 Total Water CEUs – ESAC #6314

Course Description: This presentation is specifically developed for those Operators running package plants. The first half the day will cover a brief history, discusses the configuration of the components and process as well as discusses the application guidelines of the package plant. It details the features of adsorption clarification, mixed media filtration as well various enhancements made to the product since its introduction in the late 1970's. The second half of the day will be more hands on in a package plant were a backwash, clarifier flush, filter core sampling, and AC media check will all be observed. Jar testing will also be discussed and performed as well as a discussion on determining the package plants solids removal performance during the second half of the day.

Instructor: Adrian Williams, Richard Ross, Eric Lawrence, Dave Lucey, Westech-Inc.
