Description: Are you prepared for the upcoming exams? Let OAWU help prepare you with this two-day review to brush up your terminology, system operations, maintenance requirements, and math. After study and this review, you will be ready for your levels I&II WTWD certification exam.	Description: This class will be a real-world discussion utilizing a diagram of an actual water treatment facility to give attendees the knowledge necessary to test for their level 3, 4 Water Treatment, Distribution Certification, as well as Filter Endorsement. Different types of water filtration plants that are used in the water industry will be discussed in depth as well as proper operations of those filters focusing specifically on the math required to run Conventional and Direct Water Filtration plants. The math required to install, bring into service, and operate the distribution systems served by these water filtration plants will also be discussed.
